FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF THE SECRETARY

Re: WT Docket 94-102  
TTY Quarterly Report 2003  
Cellular South Licenses, Inc.

Dear Ms. Dortch:

On behalf of Cellular South Licenses, Inc. ("Cellular South") this letter is submitted to report the status of the company's implementation of the capability to transmit 911 calls from text telephone ("TTY") devices. Cellular South's Petition For Waiver And Extension of Digital Wireless 911 TTY Requirements requested an extension of time to comply through December 31, 2003.

Cellular South is a TDMA digital wireless carrier operating cellular radiotelephone and personal communications services in multiple markets. The company is also implementing and has begun to operate a CDMA overlay as an alternative digital air interface technology.

TTY testing is now complete and TTY services are fully functioning at Cellular South's digital switches at Jackson, MS (both Nortel and Lucent switches), at Memphis, TN (Lucent), and at Mobile, MS (Nortel).

Digital TTY functionality has been achieved throughout Cellular South's systems; no further quarterly reports will be filed in this matter.
